

INTERVIEW APPROVAL FORM

Student Name: _____

Interviewee Name: _____

Interviewee's Credentials: _____

Ten questions I will try to ask within 30 minutes. (You are not required to ask all ten questions since it is most important that your interviewee enjoy the interview and that you stay within the time allotment that you asked for. Get as far as you can, but remember that even comments that were not prompted from your questioning are often most valuable.) These questions are required because it is important to know what your conversation objectives and direction are. You can't just sit down and expect the interviewee to know what kind of information you're looking for.
